MAJOR REPAIR WORK TO BEGIN ON WINCHESTER DRIVE

A major street reclamation and resurfacing project is scheduled to begin on Winchester Drive in Sedalia on Apr. 22, 2019, weather permitting, and is anticipated to be complete by July 1, 2019. The project will include all of Winchester Drive within the city limits from near the Winchester Drive intersection with U.S. Highway 50 to near the roundabout at State Highway "Y". Drivers are encouraged to plan ahead and avoid the area to assist in keeping congestion to a minimum so these roadway improvements can be made safely.

Beginning on Monday, Apr. 22, 2019 and continuing through May 10, 2019, motorists traveling along Winchester Dr. between 7:00 a.m. and 5:00 p.m. will encounter periods where flagmen are present limiting traffic to a single lane or temporarily closing the roadway to allow for movement of work crews using heavy equipment. Work crews will be milling along the curb line to prepare the roadway for resurfacing and repairing base failures. After 5:00 p.m. when work crews are not present, drivers should anticipate the roadway surface next to the curb will be "roughened and uneven" and some areas due to their deteriorated condition may be signed, barricaded, barreled and/or coned off to prevent vehicles from encountering drop-offs or other uneven roadway surface conditions. Motorists are encouraged to reduce speed in the work zone to accommodate these conditions.

On Monday, May 13, 2019 and continuing through May 17, 2019, plans are to **CLOSE** the southern section of Winchester Drive from the roundabout to W. 10th St. between the hours of 7:00 a.m. and 5:00 p.m. for removal of the current roadway surface. Motorists planning to travel in the area will need to find an alternate route as the road will be closed. After 5:00 p.m. when work crews are not present, drivers will encounter drop-offs and uneven roadway surface conditions and should reduce speed in the work zone to accommodate these roadway conditions.

Similarly, on Monday, May 20, 2019 and continuing through May 24, 2019, plans are to restrict traffic on the northern section of Winchester Dr. from W. 10th St. to near the intersection with U.S. Highway 50 to one lane of traffic between the hours of 7:00 a.m. and 5:00 p.m. for removal of the current roadway surface. Motorists planning to travel in this area are encouraged to use alternate routes as delays will occur due to lane restrictions and temporary closures. After 5:00 p.m. when work crews are not present, drivers will encounter drop-offs and uneven roadway surface conditions and should reduce speed in the work zone to accommodate these conditions.

On Monday, May 28, 2019 and continuing through June 6, 2019, between the hours of 7:00 a.m. and 5:00 p.m. work crews will complete the reclamation process on the roadway. Motorists planning to travel in this area are encouraged to use alternate routes as delays will occur due to lane restrictions and temporary closures. After 5:00 p.m. when work crews are not present, drivers will encounter drop-offs and uneven roadway surface conditions and should reduce speed in the work zone to accommodate these conditions.

From June 6, 2019 until June 24, 2019, work crews will not be present in the area while the roadway surface cures prior to asphalt being applied. Motorists will be able to drive on the roadway during this period. Drivers are advised to be aware of the roadway surfacing project and reduce speed in the work zone as is appropriate for the roadway conditions.

Asphalting of the roadway is scheduled to begin on June 24, 2019, weather permitting. A Public Service Announcement will be released prior to the start of the asphalt portion of the project detailing the specific days sections of Winchester Dr. will be closed or have lane restrictions.

We apologize for any inconvenience these road closures and lane restrictions may cause as we work to improve this area. Please note that this resurfacing project is weather and equipment dependent and may be delayed due to rain or equipment breakdowns.

When: Mon., Apr. 22, 2019 through July 1, 2019

Where: Winchester Drive from just north of the roundabout to near the intersection with U.S. Highway 50

Why: Street Reclaiming and Resurfacing
